

Agnes Scott Students Make Decatur Their Spring Break Destination

Not every area college student traveled to the beaches during spring break. Instead, 35 Agnes Scott College students descended upon Decatur and Atlanta business and professional people to observe them in their career settings for a day.

Sponsored by the Office of Career Planning at Agnes Scott, the Career Observation Day program has matched generous community mentors with eager college students each spring break for more than 25 years. Below is a list of Decatur mentors who hosted students for a day.

For additional information on Agnes Scott's Career Observation Day, contact Gail Bell, GBell@Agnesscott.edu, or call 404-471-6397.
