Empowering Scotties

to build professional capital and achieve early career success

At Agnes Scott, we accept and **graduate** a diverse undergraduate student body with no racial, ethnic or socioeconomic majority. We build real-world experiences into the curriculum so that all students engage with professional leaders throughout the academic experience and embed internships or research across all majors. Employers consistently give our students strong ratings (versus college peers) for skills in teamwork, communication, professionalism and multicultural agility. A few examples by major ...
