What is a Flexible Spending Plan?

A Flexible Spending Plan is a benefit you elect during Open Enrollment each year. Your plan allows you to deduct certain amounts you select from your paycheck before any taxes are calculated. Your deductions can then be used to pay for certain medical and daycare expenses income tax free. Because your deductions are set aside are pre-tax, you are able to save 30% - 40% (depending on your tax bracket) of every dollar you deposit.

The advantages of your plan include:

- **Tax Savings**
  (Federal, State, Social Security)

- **Increased Take-Home Pay**
  (Income subject to tax is reduced)

- **Convenience**
  (Save for premium, healthcare and dependent care expenses through payroll deduction)

What Things Can I Pay For Tax-Free?

There are three different pre-tax benefits you can take advantage of in your plan.

Your deductions are used to reimburse your out-of-pocket medical, dental, and vision expenses.

Your deductions are used to reimburse up to $5,000 per year per family for the expenses you pay for someone to care for your children under the age of 13 or other qualified dependents.

THE ABOVE EXAMPLE ASSUMES THE FOLLOWING:
► Married, filing jointly, with one dependent (tax exemptions and standard deductions of $22,350)
► State tax of 6% on federal taxable income. Rate and application will vary by state and/or city.

Who Can Participate in the Plan?
► Existing employees who work at least 0 hours per week are eligible to participate.
► New employees may participate the first of the month following date of hire days.

What is the Plan Year?
The Plan Year for AGNES SCOTT COLLEGE starts every January 1st, and ends on December 31st.
How Does My Flexible Spending Plan Work?

- Enroll
- Payroll deductions are deposited to your account
- Encounter a claim
- Pay with your Benny Card or submit your claim receipts
- Get reimbursed for claims submitted
- Manage your account on-line 24/7

Important Differences to Note:

<table>
<thead>
<tr>
<th>Healthcare Spending Account</th>
<th>Dependent Care Spending Account</th>
</tr>
</thead>
<tbody>
<tr>
<td>You may be reimbursed for your entire annual election at any time during the Plan Year.</td>
<td>You are only paid up to the amount you have in your account at the time of service.</td>
</tr>
</tbody>
</table>

The reimbursement amount is not based on how much you have contributed to the plan to that point. For example, you have an annual election of $500, and you have contributed $250 so far in the Plan Year. You submit your first receipt for $300. You will be sent a check for the full $300 even though you have only contributed $250. Of course, you can never be paid more than your annual election.

If you are not using your Benny Card, all receipts must be received by Benefit Alternatives, Inc. seven WORKING (not calendar) days before your payday (or when you normally would receive your reimbursement check) to ensure that you will receive a check in that reimbursement period.

► Completed Claim Form
Understanding the Rules

Changing Elections
Once you have made an election, you may not change that election unless you have a "change in status".

For the Dependent Care Spending Account only, you may make a change in your deduction only if the provider changes what they charge. If the provider is a family member, this does NOT apply.

Qualified Expenses
If you are not using your Benny Card, you must have a receipt to be reimbursed.

Be familiar with the list of eligible and ineligible expenses in order to maximize the value of your account.

Use-It-Or-Lose-It
If you do not use your Benny Card or you do not submit receipts, you may not get your money.

Helpful advice for managing the “use-it-or-lose-it” rule:

➤ Only set aside money for expenses you know you will spend.
➤ Review your family expenses over the last year or two as a guide for finding commonly recurring expenses (routine medications, glasses, chiropractic visits, etc.).
➤ Do not set aside money for non-recurring expenses (root canal, broken foot, etc.).
➤ Remember your tax savings may serve as a cushion if you have over-estimated your expenses.

Example: let’s assume you are in a 30% tax bracket and you set aside $1,000 in your account. You saved $300 in taxes from your savings election. If you made a mistake in your estimates and you only had $900 in receipts for the year, you will lose $100. But, you are still ahead by $200 because of your tax savings.

While you need to pay careful attention to the use-it-or-lose-it concept, any risk should be lessened by good planning.
