IF THE SMARTBOARD IS NOT WORKING,
PLEASE TRY THE FOLLOWING BEFORE CONTACTING ITS:

1) Use the keyboard mouse to double click on the SMARTBOARD icon -- located in the system tray on the bottom right hand corner of the screen
2) Click on the SMARTBOARD "Control Panel"
3) Click on the “Boards” tab

4) Under serial ports, click the “Connect” button
5) Click the "Detect SMART Hardware" button

6) When finished, click "OK" and close the SMARTBOARD options

If these instructions do not fix the problem, please call the ITS Help Desk at x 5487
