About the Library

The mission of McCain Library is to support and enrich the educational program of Agnes Scott College, contributing to graduating students capable of finding, evaluating, and synthesizing information.

Our aim is to provide students and faculty with the close individual attention possible at a small liberal arts college, as well as wider access to larger collections and specialized research materials available at university libraries and archives in Atlanta and beyond.

Built in 1936, McCain Library reopened in 2001 after a substantial renovation and expansion across 7 floors. The facility provides varied and appealing spaces for group collaboration, individual study, research, and reflection. The third floor is a silent study area; laptops, conversations, and cell phones should not be audible on that floor.

A wireless network is available for current students; connect to WoofWoof WiFi. Guests may use GuestNet WiFi.

Most of the group study rooms overlook the Science Quad. Carrels are scattered throughout.

Take a look around at the building's art for a study break.
